

RESOLUTION NO. 2017-34

A RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A GRANT APPLICATION SUBMISSION BY THE HURON PARKS AND RECREATION DEPARTMENT TO THE ERIE METROPARKS LOCAL PARK CAPITAL IMPROVEMENT GRANT PROGRAM AND AGREEING TO COOPERATE FOR THE PURPOSE OF PROVIDING OUTDOOR RECREATION IMPROVEMENTS

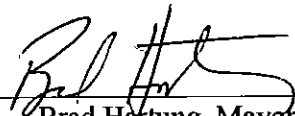

WHEREAS, the City of Huron desires to utilize funding available through the 2017 Eire MetroParks Local Park Capital Improvement Grant Program,

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF HURON, OHIO:

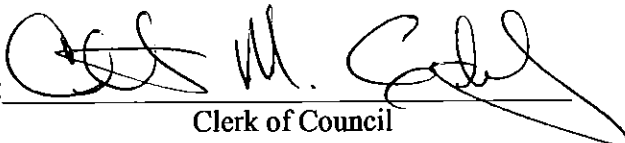

Section 1. That the City manager is authorized to approve the submission of a grant application by the Huron Parks and Recreation Department to the Erie MetroParks Local Park Capital Improvement Grant Program and further, the City of Huron agrees to cooperate for the purposes of increasing and improving outdoor recreation opportunities under the terms and conditions of the "2017 Local Park Capital Improvement Grant Program" administered by the Erie MetroParks Board of Park Commissioners.

Section 2. That this Council hereby finds and determines that all formal actions relative to the adoption of this Resolution were taken in an open meeting of this Council and that all deliberations of this Council and of its Committees, if any, which resulted in formal action, were taken in meetings open to the public in full compliance with applicable legal requirements, including O.R.C. §121.22

Section 3. That this resolution shall go into effect and be in full force and effect from and after the earliest date allowed by law.

Brad Hartung, Mayor

Attest: 

Clerk of Council

Adopted: APR 25 2017

Roll	Material	Rolls	Color	Weight (lbs/ft ²)	Dimensions		Roll Width (ft)	Rolls per Roll	Weight (lb)	Availability		
					Width (ft)	Length (ft)				Quantity	Rolls	Availability
AccessMat	100% Polyester roll	AMS-100	Blue or Brown	0.405	5	100	203	13	26	26	2	Yes

Counties, Cities, Towns, National & State Parks, other government and non-profit organizations officials, as well as any individual willing to increase accessibility to their beaches should consider providing our AccessMat Beach Access Mat system to comply with the Americans with Disabilities Act (ADA) guidelines.

AccessMat Beach Access Mats have been specifically developed for use in permanent or temporary recreation access applications. AccessMat is a portable and removable rollout access route that can be used in a multitude of applications for individuals of all abilities (pedestrians and wheelchairs access), as well as strollers.

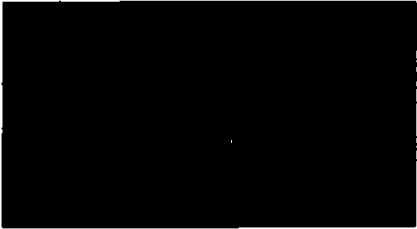

Aesthetically pleasing

Visually attractive, the blue color of the AccessMat provides a surface that is highly visible, delineating the route to access recreation areas for people with visual impairments.

Affordable

Starting at less than \$8 per square foot, AccessReo, LLC provides the most affordable way to create a beach access route. Do not forget to compare the costs required in frequent replacement and extensive installation or maintenance, which may actually end up costing much more!!!

AccessMat can be offered in 5' or 6' wide by 33', 50', 75' and 100' long – it is available in blue or brown color.

Comfortable and Safe

Developed specifically for pedestrian traffic, AccessMat provides a barefoot friendly surface for beach goers. Wherever a water pervious, enhanced grip walkway access is required AccessMat Beach Access Mat is the solution. The polyester material provides safe edges that do not require secondary finishing. This highly reduces the risk of injury to bare feet.

Durable & Lightweight

The durability of construction and portability of the product make it the perfect solution for providing accessible beach pathways. Utilizing the benefits of polyester ensure that rigidity and strength are preserved over soft sand surfaces while the polyester material is able to contour to undulating surfaces. Weighing only 0.405 lbs/sqft AccessMat can easily be carried by 1-2 persons. At the end of the season simply roll back your AccessMat and store it till the next beach season. Your mat will remain as lightweight as the first time you put it down as sand does not get stuck under the flat polyester surface.

Environmentally Friendly & Recyclable

This environmentally friendly product is easily installed and removed per environmental regulations. The mat is also able to be cut and formed around existing beach structures, in addition to protected native beach dunes. The UV stabilized polyester material is recyclable after use reducing its environmental impact.

Quick Installation & Maintenance

AccessMat Beach Access Mat is available in roll form allowing for a quick roll and pin installation. Its lightweight design (0.405 lbs/ft²) allows for ease of installation. Simply unroll your mat and stake it down using our oversized spikes (10" to 20" long). When the beach season is over, AccessMat can easily be removed as its structure does not allow sand to get stuck under it. Two people can install a 5' x 100' section in just 10 minutes. Minimal maintenance - the product can be cleaned by use of a broom, blower, or pressure washer – sand goes through the permeable structure of the mat and does not get stuck under the surface of the mat.
