### **Subject Matter/Background**

Matt Cummings called to say there is a sign on Main northbound as you approach US-6, but there is no sign on the southbound approach. He said that he has seen numerous instances of drivers turning into oncoming traffic.

Terri,

When I spoke to Greg Bauman, one of the concerns he mentioned was traffic coming through North Port thinking they were heading to Harbor North. He asked if the city would consider "No Outlet" signage at their entrance. I told him I would pass this along to you for process either at Safety Committee and/or Council.....

**Subject:** Bike lane on Cleveland Rd west.

I would like the safety committee to look at improvements to the bike lane on Cleveland Rd West. Better marking and signage was the recommendation from a citizen.

Thank you for your consideration.

Terri: wanted to pass along an item that's been requested for consideration by the City. Feels like a good topic for the next Safety Committee meeting.

Residents on Ohio St. have asked the city to consider some additional signage at the Cleveland Rd. / Ohio St. crosswalk. Vehicular traffic does not pay much deference to bikes/peds in this area, especially during the school year. Some additional signage/markings might help make the area safer for people crossing Cleveland Road.

Not sure when the next meeting will be, but would appreciate placing it on the list of items to discuss.

Thanks,  
Mike

Hi Mike,

Just curious if any progress is being made dealing with the crosswalk issue on Cleveland Road & Ohio Street. We talked briefly this past summer, and you indicated you would turn the questions over to the safety Committee of Council. I seem to recall a young man being hit by a motorist at the Center Street & Cleveland Road crossing back in August and it made me think a crosswalk might of helped.

Hope you have some information to pass along and that a solution is in the works.

Thanks!!
