

- I was hoping to obtain the estimated project value, cost, or budget for the project- RFP Engineering - Phase II Reconstruction Project SR2 to Center St- 107223 ERI - US 0006 - 16.07.
- **Very roughly \$3,171,535 in construction costs.**
- Can you tell me if any studies have been performed as preliminary work for this project area? If yes, may we please obtain a copy of those studies?
- **There have been no prior studies.**
- As it relates to the RFQ for the subject project, I'm wondering if the city has completed any prior studies or any conceptual plan work?
- Yes. See attached to the email.
